

iSource India Joins Industrial Advisory Board at Vishwakarma Institute of Technology, Pune

We are proud to announce that our Director was recently invited to join the **Industrial Advisory Board** at Vishwakarma Institute of Technology, Pune, a moment of great pride as an alumnus of this esteemed institution!

During the discussions with the institute's professors, we had an enriching exchange on the **key objectives of supply chain management**, and their insights were incredibly valuable. Here are some of the critical points shared:

Key Objectives of Supply Chain Management:

1. Optimizing Efficiency
2. Minimizing Costs
3. Enhancing Customer Satisfaction
4. Providing a Competitive Advantage
5. Streamlining Transportation and Logistics
6. Improving Delivery and Distribution
7. Maintaining Better Coordination
8. Accurate Demand Forecasting
9. Strengthening Supplier Relationships
10. Ensuring Quality Control
11. Promoting Sustainability
12. Reducing Lead Times

These valuable inputs will play a crucial role in refining our own **supply chain and sourcing processes** at iSource India, enabling us to better align with these objectives and drive further improvement. We look forward to continuing such meaningful interactions and deeply appreciate

the contributions from these academic experts.
