

# iSource India Participates in the International Engineering Sourcing Show 2024

We are excited to share that iSource India had the privilege of being invited to the **International Engineering Sourcing Show (IESS)**, organized by the **Engineering Export Promotion Council (EEPC)**, held at **Codissia** on 4th and 5th March 2024. This event served as a fantastic platform for fostering connections between Indian exhibitors and international buyers, promoting India as a hub for smart manufacturing.

We are grateful to the exhibitors for making this event a tremendous success. As a sourcing company from India, we had the opportunity to engage with numerous Indian suppliers at the exhibition, building valuable relationships for future sourcing needs.

The event, supported by the **Department of Commerce, Government of India, and EEPC India**, was truly a one-of-a-kind experience that showcased India's growing expertise in engineering and manufacturing on a global scale.
